

## **Randy Tanaka, DISA Europe Enterprise Operations Center and National Leadership Command Capabilities Executive, Joins Suss Consulting**

JENKINTOWN, Pa., October 21, 2024 – Suss Consulting, a leading provider of federal IT opportunity capture, proposal support, price-to-win analysis, strategic planning, and market research services, today announced the addition of Randy Tanaka, recently retired from the Defense Information Systems Agency (DISA) who served as the Technical Director of the DISA’s Europe/Enterprise Operations Center and the Chief of DISA’s National Leadership Command Capabilities Center (NLCC).

“Randy’s experience providing world-wide connectivity and enterprise IT services for Combatant Commands, Presidential and Senior Leaders, Nuclear Command, Control, and Communications (NC3), and Continuity of Government (COG), will help our clients develop next generation solutions to address some of the Defense Department’s top strategic and operational challenges,” said Warren Suss, President of Suss Consulting.

As the Technical Director at DISA Europe/Enterprise Operations Center Mr. Tanaka provided IT service support for HQ USEUCOM, HQ USAFRICOM, and other COCOMs/Services/Agencies operating in the European theater, directing senior leadership in problem solving during high OPTEMPO and real-world crisis responses.

Prior to that, he served as the National Leadership Command Capabilities Center (NLCC) Chief at DISA managing programs supporting mission areas including Presidential and Senior Leader communications, Nuclear Command, Control and Communications (NC3), Continuity of Government (COG), and Senior National Leadership Communications (SNLC). While at NLCC, he supported time-critical telecommunication needs of Senior National Leaders and provided leadership direction and program oversight in the resourcing, development, coordination, testing, implementation, and operation of NLCC programs.

In his career at DISA, Mr. Tanaka also held the positions of Operations Directorate Technical Director and SATCOM Engineering Division Chief. He pioneered the first-ever DISA use of a Creative Research and Development Agreement (CRADA) to team with private sector partners.
